17,750 Cars a Day

Sweetwater Speed To Stay at 35Mph

SAN DIEGO (CNA)—County supervisors have rejected a request to lower the speed limit on Sweetwater Road in Spring Valley from 45 miles an hour to 35 miles an hour.

They did approve the recommendation of the county traffic advisory committee for restriping at intersection to provide for left turn storage lanes.

The road is carrying near-freeway volumes of traffic and a count in March showed 17,750 cars a day north of Jamacha Road.

The committee said that 85 percent of the motorists drive at maximum speeds of 42 to 47 miles an hour. It said that merely posting lower speed limits will not be effective in controlling speeds in the absence of other controls.

The road has had a very high accident rate with 26 accidents, 13 involving injuries, in the five and a half months after reconstruction.

During the next fiscal year, the county plans pavement extensions at the intersections so that full channelization for left turn pockets can be installed.

Traffic lights are planned at Jamacha blvd. and Blossom lane in the following fiscal year although this is tentative.

Sweetwater road will remain a problem until the proposed parallel state freeway is constructed.

Parent Council Plans 'Watchdog' For LMSV Schools

A newly formed citizens committee has been formed in La Mesa to oust Glenn Murdock who has been superintendent of the La Mesa-Spring Valley school district for 22 years.

The group, headed by Mrs. James Ketcham, a frequent critic of the district, calls itself Parent Action Council. Mrs. Ketcham, who said she is spokesman for the group, said the group would also control sex education in the district and shut out sensitivity training.

Sex education in the district has been under fire for several years. Sensitivity training, a new educational concept, is a group-confrontation, self expression concept of learning.

In a prepared statement Mrs. Ketcham said that the Council is concerned about certain conditions believed to exist in the L.M.-S.V. school district. Efforts to ascertain true conditions have met with apparent hostility and lack of candor by school officials and board members, she said.

The recent school board election is believed to have been unethical and basely motivated, she claims. She also complained about the property tax rates in the district and the fact that school officials showed no effect to alleviate the "outrageous" taxes.

She also asks a firm policy on dismissal of any teacher not adhering to policies and rules regarding sensitivity training, sex education or drug abuse.

She said R. E. Tucker, 8020 Alida st., La Mesa is chairman of the Council. She lists herself as publicity chairman in addition to being the spokesman.

A Wreck is No Accident

Patrick J. Doogan, president of the San Diego Safety Council is a quick man with a word.

In a communication to the media Doogan reminded that O. J. Roed, chief of police of San Diego had convinced him that the word "accident" has no place in traffic incidents.

Said Doogan, "the word 'accident' has an unfortunate connocation suggesting that 'what will be, will be' and no fault is implied.

"However," he adds, "when it comes to motor vehicle 'accidents,' usually there is fault. When one car crashes into another, one driver or the other is at fault . . . or perhaps both are. When a car is wrapped around a utility pole, there is fault.

"Therefore we are going to strive to stop using the word 'accidents' in connection with automotive collisions, wrecks, crashes, and smashes. We hope you will adopt the same policy for, really, it is wrong for all of us to describe as accidental that which is preventable."

And that makes sense!

GUEST EDITORIAL

AS I VIEW IT
Boat For The Idaho Navy

A spy sent us a clipping from the Idaho Sunday Statesmen dated April 6, 1969 in which the anticipated California earthquake had brought a communication from a Lemon Grove resident.

read:

The communication, to the Boise Chamber of Commerce

"A California veterinarian, apparently mindful of the predictions the state will topple into the sea this month, wants to tie up his boat in Boise. Dr. Robert F. Burns of Lemon Grove, Calif., sent a letter April 1 to the Greater Boise Chamber of Commerce."

'Please reserve boat slip space for 20-foot inboard named "Mono Queen" for indefinite period following tentative date April 15, 1969,' the letter said."

We acknowledge that Dr. Burns is a prudent man for this advance planning, but "no guts."

School Board Asked To Hire Blacks; Mexicans

The Lemon Grove School Board heard a group of black parents register grievances regarding problems between black and white children on school buses Monday at the Board Meeting at Education Cnter.

In a prepared statement, Eugene Fussell, M.D. representing Concerned Parents of L.G. School District, read the grievances and said bus drivers are the instigators of some of the contention between black and while children.

He also complained of poor teacher-parent relations and of a black student instructed by a teacher to write a paper on George Washington rather than on Dr. Martin Luther King during a class on "My Favorite American".

They also asked that: Black and Mexican-American teachers be hired in the L.G. District; that multi-racial yard and cafeteria monitors be employed, and that Black and Mexican-American history be taught and libraries be expanded to accommodate same beginning in the first grade.

Bert Cosby, chairman of the Board, agreed to investigate the complaints and report on them at the May 12 meeting. Board members also agreed to attend a "dialog" the group holds regularly. The next one is scheduled for 6 p.m. May 6 at the home of Mr. and Mrs. Franklin Ball, at 2544 Pergl st., Lemon Grove.

Cosby explained that hearings, if any, would be closed as provided by law regarding personnel matters or problems regarding children. This protection is covered by provisions of the Brown anti-secrecy Act.

Business manager Paul Reynolds reported that the suit against the state to prevent withoholdings of Federal Impact Funds had resulted in the funds being placed in trust until litigation is over. "We won but we lost," opined Lawyer-Trustee Bob Sjogren.

Byron Netzley, District Superintendent, reported to the Board that 74 teachers and 150 citizens would take part in the override election scheduled for June 17. They would contribteu off-duty time, making home and telephone calls.

He reported that Max Goodwin, local publisher, had been named chairman of the Citizens Committee For the Override; Mrs. Simon Brumbaugh is House-to-House Chairman, and Don Beebe, a service station owner, is Fund Raising Chairman.

In other business, L.G. Junior High School Principal Lou Poluzzi was appointed director of the Summer Head Start program. This is federally funded by the office of Economic Opportunity.

Broadway Speed Cut to 25 Mph

SAN DIEGO (CNA)—County supervisors have approved a reduction of the speed limit on Broadway between Olive and Kempf streets in the heart of Lemon Grove's business district from 35 to 25 miles an hour.

Perhaps more important, the county engineer was directed to investigate the possibility of physically controlling access to the adjacent shopping areas to see if the high accident rate can be dropped.

The actions were taken on the recommendation of the traffic advisory committee.

The committee said the lowering of the speed limit would actually be little more han adjustment to the actual speed of motorists in the congested area.

The committee said the virtually uncontrolled access between Imperial and Kempf, an infinite number of potential conflicts are possible.

The short section of road has had 90 accidents in the past three years, 31 of them involving injuries.

PRESIDENT LEMMER

Grove Woman Heads 165,000 State Teachers

Mrs. Margaret L. Lemmer, English teacher at Lemon Grove Junior High, has been elected president of the California Teachers Association, a 165,000 member professional organization ranked as the largest state professional group in the nation.

Her election came at a meeting last week of the CTA State Council of Education at Asilomar.

Mrs. Lemmer, who has taught in the Lemon Grove District for the past 21 years, has a long history of teacher association work. Long a member of the executive board of the Lemon Grove teachers CTA chapter, she served for two years as president of the San Diego County teachers group, and, previous to her election to the MTA Board of Directors six years ago, she served as president of the CTA Southern Section headquartered in Los Angeles.

Her election as chief spokesman for approximately 85% of the educators in this state sees a woman president of CTA from Southern California for the first time in the organization's history. Also, Mrs. Lemmer is the fourth woman to serve in the one hundred and nine years the CTA has been in existence.

For the past five years she has served not only as a director of the non-profit corporation based in Burlingame, California, but also as CTA's legislation chairman, another first for a woman.

Well-known in this community for her school work as well as activities with school-related groups, nearly 4,000 students here during the years she has been teaching in local schools have passed through her English and social studies classes. Previously she taught in her native Pennsylvania where she graduated from California State College in western Pennsylvania.

Her husband, Jack Lemmer, who is an English teacher here at Palm Junior High, has also been active in teacher association work, serving in past years both as chapter president in Lemon Grove and president of the county teachers organization.

Readers Take Note: This Story Is For All Clock Watchers

About this time of year people on the Pacific Coast have to set their clocks ahead one hour when Pacific Daylight Saving Time starts and Pacific Standard Time ends.

Naturally enough, it's at this same time that editors tell their desk men to do something about informing their readers of this time change.

So — April 27 is the date and 2 a.m. is the time daylight saving time starts. Set your clock ahead one hour.

We were reminded that the old slogan tells it best, and it should be memorized: "Spring ahead in the spring and fall back in the fall."

Camp Fire Girls—800 a Week— To Get Called To Camp Wolahi

Sleeping under the stars. Cooking on the open fire. Making new friends. And, singing 'round-the-campfire.

All this is part of the program offered by San Diego County Council of Camp Fire Girls at its resident camp facility in the Cuyamaca Mountains.

Camp Wolahi is opened July 6 through August 23 for seven one-week sessions. A trained counseling staff handles the summer program open to all girls from second grade through high school, Miss Judy Wilks, camp director, explained.

College-age girls are hired as counselors, unit directors, specialists and waterfront directors. In-camp staff training is held June 29 through July 4, Miss Wilks said.

Camp Wolahi is located near Cuyamaca Dam and covers approximately 60 acres of wooded land. 800 girls enjoy a week of outdoor activities throughout the summer.

The program is geared to the interests and abilities of the various age groups, Miss Wilks said. Daily activities include swimming, hiking, campcraft, nature lore, singing and creative play.

"A progression in each of these areas is offered to the girls through unit and cabin planning," Miss Wilks said.

Progression is also planned in Camp Wolahi's living arrangement so that girls experience a new accommodation each year, Miss Wilks explained.

Living facilities at Camp Wolahi include cabins, tent platforms, Adirondacks, teepees and a hogan. Other buildings in camp are the dining hall, health house, camp director's office and counselor lodge.

Blue Birds (girls entering third and fourth grades) are Squirrels at Camp Wolahi and they live in cabin groups of eight girls and one counselor. Activities include swimming, singing, hiking, cooking, handcrafts and creative play.

First year Camp Fire Girls are Thunderbirds and they live in tent platforms. Many girls complete the first Signpost in outdoor living, Fagot Finder, during their week at camp.

Warriors are girls entering the sixth grade and they live in Adirondacks, a three-sided block building. This unit usually participates in an overnight outside camp.

Junior Hi members, Teepeeites, live in authentic Indian teepees, and cook most of their meals outdoors. Girls entering the eighth grade who have completed the first two Signposts are eligible to register for the Gypsy Unit, a special 11-day session with emphasis on the completion of the Gypsy Signpost. Dates for Gypsy Camp are July 27 - August 6 and August 10 - August 20.

Wilderness Camping is offered for the Horizon Club members, and they do all their own planning and cooking. Wilderness campers live in their own unit high above the central camp. This unit is open only the last three sessions of the season.

A special Counselor-In-Training course is offered to those girls who are interested in becoming counselors. This is a two-year course (four weeks per summer) given to selected girls who are at least 16 years old and have completed the sophomore year of high school.

Firm Honors L.G. Manager

The Lemon Grove Public Finance Company office managed by Keith Durbin was among 23 branches to be honored by the parent firm, American Investment Company, for having more than $1,000,000 in receivables outstanding, AIC reported. Durbin was also commended for having trained more managers than any other San Diego manager. The office is at 3031 Imperial ave.

Recognition was given in the special edition of a 16-page "Yearbook" mailed to the division's nearly 700 employes in seven Western states.

The division operates 170 consumer finance offices, most of which are located in California. The parent company has 817 loan offices in 42 states, an insurance division and American National Stores, a furniture and appliance chain with 111 units in 17 states. AIC's assets total nearly $600 million.

Beat Goes On' In M.V. Show

Spotlighting folk-rock and jazz, along with a musical tribute to contemporary leaders, the 1969 Monte Vista Pop's Concert will be presented at 7:30 tonight, tomorrow and Saturday in the school's gym.

"Unique staging, coupled with lighting and choreography, will make this year's Pop's Concert completely different than ever before," Band Director Monte Snyder said.

The show, entitled "And the Beat Goes On," will feature "The Music Creation," a group made up of Monte Vista alumni; "The Passions," a group from Morse; and vocalists Don Gilmore, a teacher; Denise Jiter, M. V. alumni; and Junior Paige Rauch and Senior Chris Barr.

"The Passions" will sing "Aquarius," the popular song from the show "Hair." Selections from the "Bee Gees" will be performed by "The Music Creation."

In addition to these guest entertainers, a vocal ensemble and a dance group called the Image XV, made up of MV students, will perform under the direction of Mrs. Ruth Crouse and Mrs. Dana Gillespie, both teachers at Monte Vista.

Frank O'Connors Feted

The home of Mr. and Mrs. Jerry Walter was the setting for the Silver Anniversary of Mr. and Mrs. Frank E. O'Connor on April 20.

More than 200 guests attended the celebration, which was a surprise, arranged by the Jerry Walter family.

Out of town guests included, Mrs. Ruth MacMahon, sister of Mr. O'Connor from St. Paul, Minn., Mr. ad Mrs. John O'Connor, Mr. and Mrs. Timothy O'Connor, nephews from the Los Angeles area. Mr. Al Krumweide, from San Francisco, Mr. and Mrs. Jerry Quirk from Rosemead, Cal., and Mr. and Mrs. B. M. Walter from Burbank, Cal.

Kiwanis Get Water Talk

The Spring Valley Kiwanis club heard Glenn Reiter, of the Otay-LaPresa Water District describe the 250 mile journey water makes before it comes to the local area.

Reiter said the area will eventually have to depend on coverted sea water.

The Kiwanis meets Wednesday mornings at Golden Bowl in Casa de Oro.

It is not a disgrace to have a mental or emotional problem. It's really a matter of degree, because everyone has such problems from time to time. Many of these problems can be treated today without leaving job or family through newly instituted day or evening treatment programs.

Over 500 happy San Diego County residents became parents in 1968 through adoption services provided by United Crusade supported Children's Home Society of California.

This Sunday

Always and Everywhere

Let no one imagine that it is a strained and unnatural thing for one to pray. The contrary is much closer to the fact. It is far more unnatural for one not to pray. Prayer is one of the most natural of human instincts. Prayer is man's response to the divine will.

The American Field Service Adult Chapter of Mount Miguel is sponsoring the show. 'Better Than Rummage' Sale Planned in L.M.

The 22nd annual "Better than Rummage Sale" sponsored by the Evening Belle's Section and the Morning Section of the La Mesa Woman's Club will be held May 1, 9 a.m. to 8 p.m. in the La Mesa Woman's Club, 5220 Wilson st., La Mesa.

The public is invited.

The sale was originally a small group of women from the Morning Section who had outgrown, slimmed down or just plain grown tired of their clothes and other items still good, so they got together to exchange for a small fee their belongings. The sale has grown into an annual "looked forward to" event by the members, their friends and the public.

The project got so big that the Morning Section (a group of 25 women) 4 years ago asked the Evening Section to join them in sponsoring the sale.

Proceeds from the sale are divided between the two sections for their various welfare projects. Many left over items are donated to a charitable organization each year.

Items for sale include womens, mens, childrens clothing, miscellaneous furnishings, dishes, appliances, and other wanted items.

At 7:30 p.m. a special meeting will be held for junior and senior high school students and teachers in the same auditorium. INVEST IN AMERICA
INVEST-IN-AMERICA WEEK—April 27 - May 3
The Invest-in-America Council advises "Your savings and investments mean money at work for greater economic growth."

Here's a reminder on what to do if you should ever receive an obscene or malicious call: Simply hang up. This deprives the annoyance caller of the main thing he wants—an audience. If such calls continue, however, please notify our Business Office. We have specially trained personnel to help handle these problems. With the aid of modern electronic detection devices, many of these callers have been identified. And through law enforcement agencies many cases have resulted in arrests and convictions. We want to do all we can to protect your privacy.

Don't miss the Bell System's TV Special, "A Look on the Light Side," Saturday, April 26 at 7:30 p.m. on NBC. It's a fast-moving musical venture that takes you on an unexpected travel tour around the country. Check your local TV listings for the channel.

TIKIS STAND WATCH — Five tikis and Steven Oliphant stand watch at the Oliphant home in Lemon Grove. Statues were hand carved from trunks of fan palms by Steven's father, Alva. They sport metal hats, flower-gilded eyeshades and giant spiders. These projects are examples of Mr. Oliphant's work and hobby.

UNLIKELY LANDSCAPE — Strange creatures decorate "Star Trek Hanging Tree" in front yard of the Oliphant Family. Science fiction is a family interest. A tree like this one would be of interest to anyone passing by. At far left are five Polynesian tikis standing about 10 feet tall.

Unearthly Creatures Rest In Solitude In Front Yard Of Lemon Grove Family

By JOHN GRUBER JR.

A trip from Polynesia to outer space might seem like a long way.

You'd be surprised to know it's only about 75 feet. And you can walk.

And then like many trips, what you see on the way might be more interesting than the final destination.

If you happen to pass the Oliphant home next to Lemon Grove Park on Washington st. in Lemon Grove you will have made such an unusual trip.

Five tall tikis stare out at you from the head of the driveway. And there is a large dead tree in front with a sign reading "STAR TREK HANGING TREE."

The truncated branches of this 'hanging' tree are decorated with effigies of space creatures whose heads are painted bowling balls.

This eye-catching landscape seems to dominate the Oliphant home which is tucked behind attractive shrubbery. It shows what a person can do when he combines imaginative ideas with skilled craftsmanship and a flair for the unusual — the results can be refreshingly new and different.

Alva Oliphant seems to thrive on the old story of mixing business with pleasure.

Mr. Oliphant's 'business' is teaching arts and crafts at Snyder Continuation High School in San Diego. His pleasure involves wood carving, handicraft work, soldering and welding — but often on a bigger scale than the work at school allows.

He refers to his area of interest as heavy crafts, to be distinguished from art teaching which he calls "tame," and the light crafts which are taught in the San Diego City Schools.

Perhaps good examples of heavy craft work are the five tikis in his front yard. They also show the close relationship between Mr. Oliphant's work and his hobby.

These five tikis were carved from trunks of fan palm trees (because these trees have smoother bark than other palms, and are therefore easier to work with); they stand 10 feet tall and weigh close to 1,500 pounds. Because they are full of water when cut, Mr. Oliphant says they are extremely heavy.

There is one tiki representing each family member. The likenesses bear the names from left to right Dennis Bones, David Bones, Steven Bones, Big Mama and Little Paw; they represent twins Dennis and David, 18, Steven, 21, and Genevieve and Alva Oliphant.

According to Mr. Oliphant the name Bones on the tikis is a carryover from the boys' younger days when the parents nicknamed the children Bones.

Mr. Oliphant says he has made tikis for years, and "they just kept getting bigger."

At first he designed them three inches tall so his students could use them for models to copy. These projects have taught students the skills of using electric drills, band saws, and disc sanders. Plaster eyeballs and teeth were shaped to fit.

It took students three months working together to turn out a large tiki at school. Mr. Oliphant is able to build one in ten days.

The unusually designed projects Mr. Oliphant assigns are important, he feels, in stimulating his students' interest; furthermore it teaches students the use of tools which could be of use to them in their vocations.

Four or five students have recently been working on carvings of ten-inch hippotami which can be used as toothpick holders, besides serving as conversation pieces.

Other objects designed by Mr. Oliphant for student work include models of mice, antelope, whales and ducks, to name a few.

Students also work with metal, making model cannon and other items. However, Mr. Oliphant says brass is hard to get now.

Mr. Oliphant designed and built a camper-trailer. And among other objects of interest inside the home is a giant pipe organ which Mr. Oliphant was able to get from a church in Pomona. It has 800 pipes, and he said that when he was installing them people thought he was building a bomb shelter.

STAR TREK HANGING TREE reflects the family interest in science fiction. Star Trek is a favorite television show at the Oliphants' and, Mr. Oliphant explained, when the tree out front died "rather than cut it down, I thought I'd make it into a hanging tree."

So now the tree has some unearthly figures attached to its dead branches. Their painted, bowling ball heads make them appear stark and unhappy.

A couple of weeks ago David left home for Army duty, probably bound for Fort Lewis and then Korea. Dennis left home a day later and he expects to take basic training for the Air Force at Lackland AFB.

No one forgets his home, but these front yard features will always help bring the boys fond, personal remembrances, Mr. Oliphant says.

And it's a sure thing a passerby won't forget this front yard scene either. After all, do you know of another place where you can walk from Polynesia to outer space?

The U.S. has about 120 zoos.

Learn Spanish the Easy Way

Hardison's Telespanish

by James Hardison

How does one distinguish between "saber" and "conocer" if they both mean "to know" when they are translated to English from Spanish? When should you use "saber" and when should you use "conocer?"

These two verbs are a little confusing. "Saber" is used to indicate "to know" in the sense of having knowledge of a subject, idea, or thing. "Conocer" is used to indicate "to know" in the sense of being acquainted with a person or place.

Consider the phrase "Voy saber mas cuando estudio." (I am going to know more when I study.) The verb "saber" implies that there will be a greater knowledge of a subject when a study is made of it. In the phrase "El sabe mucho." (He knows a lot) we see an example of the verb "saber" in the conjugated form "sabe" which implies that "he" knows a lot about a subject or idea.

By comparison, "Voy a conocer a Mexico." (I am going to know Mexico.) means that an acquaintance with Mexico is expected to be the results. We may also say "Voy a conocer una persona." (I am going to know a person.) which means that an acquaintance with a person is expected to be the results.

When we use these verbs in the first person singular we find that they are not entirely regular in their conjugated form. For example, "Yo se." means "I know" in the sense of knowledge of a subject. "Yo conozco." means "I know" in the sense of acquaintance with a person or place.

Today's practice phrases listed below use the verbs "saber" and "conocer." See if you can learn to say them with the recorded voice when you dial 276-2762 on your telephone. The voice will say each word and phrase and pause enough time for you to repeat them. Try it now.

IMPORTANT PHRASES:

Say "Que sabe el?" (keh SAH-beh ehl)
for "What does he know?"
Say "El sabe mucho." (ehl SAH-beh MOO-choh)
for "He knows a lot."

USEFUL PHRASES:

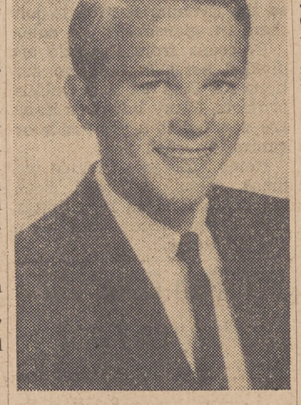

Say "Conoce usted a Elena?" (koh-NOH-seh oo-STEHD ah eh-LEH-nah)
for "Do you know Elena?"
Say "Si, la conozco." (see lah koh-NOHS-koh)
for "Yes, I know her."

OTHER PHRASES:

Say "Conoce usted Mexico?" (ko-NOH-seh oo-STEHD ah MEH-hee-koh)
for "Are you acquainted with Mexico?"
Say "No lo conozco." (noh loh koh-NOHS-koh)
for "I am not acquainted with it."

In part, Hall's letter of appreciation read ". . . This is my first Christmas away from the ones I love and, I hope, my last. It is a hard war to understand but we do our job the best we can and hope for an end to it all. God willing, someday there can be a world without war . . ."

A personal reply to this letter was sent to Hall. An excerpt reads, ". . . We received several other letters and it made us realize what fine young men are over there fighting this strange war for us and how does one express our thanks to you all for what you are doing, there are no adequate words, believe me! . . ."

LAW DAY — Lemon Grove attorney Kenneth Barwick helps mark Law Day U.S.A. May 1, by buying a ticket to Law Week Dinner from Attorney Jim Malkus. Malkus is chairman of entire week.

Week kicks off Friday with a luncheon at the U.S. Grant Hotel, honoring Paul C. Reardon, Associate Justice, Supreme Judicial Court of Massachusetts.

American Bar Assn. Chairman Is Speaker For Law Day Friday

Justice Paul C. Reardon, chairman of the American Bar Association's Fair Trial-Free Press Committee, and author of the controversial Reardon Report, will address the San Diego Bar Association as Law Week is launched in San Diego Friday.

Actually, Law Day is May 1 nationwide, but the San Diego Bar kicks off the week with a luncheon in the Palm Room of the U. S. Grant hotel.

A series of events will follow the Reardon speech. A reception honoring Justice Reardon will be given Friday at 5:30 in the library of the Cuyamaca Club. On Sunday at 7 p.m. a no-host cocktail hour will be given at the USD Law school.

A naturalization ceremony in the VFW Hall Balboa Park has been set for Monday at 9:30 a.m. as part of the Week. USD Law School Alumni will honor Justice and Mrs. Reardon at the University club Tuesday at 5 p.m. Municipal Court judges will sit en bank at an oratorical contest at Hoover high school Thursday.

The Hon. Bob Wilson will be speaker at the annual Navy Law Week celebration at noon Thursday at the Officers Club, U. S. Naval Air Station with Bar Association President William Yale as guest of honor. That night, Judicial Night will be marked at Elk Lodge 168 with Dist. Attorney Don James Keller as speaker.

Chairman of Law Week is Jim Malkus, a San Diego attorney.

Justice Reardon's Report has been the focal point of much criticism from members of the press and Justice Reardon's appearance here should attract considerable attention.

Among the restrictions imposed on information that could be released to the public by police and law enforcement agencies include:

The suppression of information regarding the prior criminal record, or statements as to the character or the reputation of an accused person.

The existence or comments of any confession, admission or statement given by the defendant, or his refusal to make a statement.

Performance or results of tests, or the refusal of the accused to take a test.

The identity, testimony or credibility of prospective witnesses.

Possibility of a plea of guilty to the offense charged or to a lesser offense.

And, other statements relating to the merits of the case.

The press has taken the position that freedom of the press and the public's right to know how its business is being conducted has been restricted in states where the Reardon Report has been approved. It has not been approved in California.

Ready Fare Starts Sunday

Correct change means faster service for you

A modern new fare system begins Sunday on all our buses. It's called Ready Fare. Drivers will no longer carry change or sell tokens. So have your fare ready. If you don't know what the fare is, phone us at 239-8161 and we can tell you. And don't worry about being able to buy tokens, they will be sold throughout metropolitan San Diego.

If you get on the bus without the proper amount of change, you can still ride: the driver takes your money and gives you a receipt for your change. You can redeem this receipt in person or mail it in and your change will be refunded. To collect your change in person, apply at either of our two offices: 235 Broadway or 235 15th Street. Please allow five days though for our processing procedures before redeeming your change.

With Ready Fare, drivers can now board passengers more rapidly and be more attentive to their driving. This should make it easier to maintain schedules and add to the drivers' already outstanding safety record. So, we anticipate many benefits for you from this new fare plan.

Ready Fare is an innovation in rapid transit that is being adopted throughout the United States. San Diego is one of 30 major cities where this program has been initiated. We studied all the other programs in detail, adopted their best features, added a few, and are providing our riders with what we consider to be the most efficient and convenient of all these plans.

Gulls Set New Marks In Successful Season

The San Diego Gulls wound up the most successful season in their short three-year history although they were eliminated from the Western Hockey League's Lester Patrick Cup playoffs by the Portland Buckaroos.

The disappointment at losing out to Portland in the semi-final round for the second straight year — both times in the seventh game — does not change the fact that the Gulls made progress for the third straight season.

The 1968-69 edition of the Gulls set numerous team records and was the first team in San Diego professional hockey history to have a winning record. The 33-29-12 mark that the Gulls turned in was good for 78 points, a team high.

"We made definite progress this season," said Gull General Manager-Coach Max McNab. "We were as good an offensive club as there was. Our goals against was up, but offensive play seemed to take over generally this season," he said.

The final game was witnessed by a season high 10,662 fans in the Portland Memorial Coliseum, including nearly 150 Gull fans who made their way to Portland to see the game. There was a charter plane load and many who came on their own.

The Gulls established team records in almost every department, and also set numerous individual records.

Warren Hynes, Willie O'Ree and John MacMillan had the best years of their careers, as did young defender Jim Eagle, McNab's choice as the most improved player in the Western League.

The Gulls had two players with 100 penalty minutes for the first time. Eagle led the team with 141 minutes and Jim Cardiff had 100 minutes. This season's Gulls set a team record for penality minutes.

McNab's plans for next year are already being formed, although the current season is barely over. "We need a center or two, a couple of good two-way forwards and one, possibly two, defensemen," said McNab.

Attendance was again a big story for the Gulls. They drew a total of 367,620 for 40 games, an average of 9,166 per game. That's broken down as 339,054 for the 37-game regular season schedule, an average of 9,164 per game, and 28,566 for the three playoff games, an average of 9,522 per game.

The regular season total exceeded last season's record mark of 337,336 and the regular season plus playoff total was more than the 367,350 that the Gulls attraced to last season's regular schedule and playoffs.

Ladies Days Set by Padres

SAN DIEGO — The San Diego Padres announced that every Wednesday will be "Ladies Day" at San Diego Stadium beginning May 21 which is the next Wednesday date on the Padre schedule with the Pittsburgh Pirates as the visiting team.

The Padres also announced gratifying results during their first home stand with military and senior citizens plans which were in effect from opening day. Under the military plan, servicemen are admitted for the 50 cent charge at all Padre home games. Every Sunday is senior citizens day with the 50 cent price prevailing. Servicemen and senior citizens are also permitted exchange privileges.

Meanwhile, the Padres announced attendance figures for their first home stand wnich included three games with the Houston Astros and three with the San Francisco Giants. The Padres drew a total attendance for the six games of 82,258. The Padres and Giants drew 49,748 fans while the Houston series drew 32,510.

Mail Bag

Dear Editor:

In regards to the article in The Dimmer View, April 10. I think Adlai Stevenson's words have come true.

I wish to quote from a recent Sunday Union, "Colorado Dept. of Parks and Game notes that a recent Supreme Court decision exempts ex-convicts from gun registration since the man's criminal record makes ownership of a gun illegal and registration therefore, self-incrimination—Gun registration foes say this means that criminals, with the Court's blessing, will ignore gun registration laws, leaving the honest citizens the only one affected —."

It is a wise man, Democrat, Republican or — that can warn us of the grave trend in our great nation. When will our representatives start representing and protecting the majority of decent citizens instead of the loud mouth dissenters, radicals, lawless, etc? Has Congress forgotten they can override a Supreme Court rule?

Dear Editor:

All those associated with the Home of Guiding Hands, and especially the 150 mentally retarded children and adults who call this their home, wish to thank you for your help with the campaign to "Buy A Bus" for the Home.

Less than a year ago the Women's Guild of the Home of Guiding Hands embarked on a drive to collect trading stamps and coupons to be redeemed for cash in order to purchase a new 48 passenger bus for use of our residents. With your generous co-operation this project was successfully completed — the specially equipped bus has been presented to the Home, and sufficient funds were raised to pay the $7,225.00 purchase price.

This represents a most important contribution because it makes children otherwise confined to a residential facility mobile and affords us the opportunity of placing these children in any invironment conducive to the learning process.

Thank you again for your splendid co-operation.

Cordially yours,
Francis S. Bell

It's A Pet Show At Vista La Mesa School

SCENES FROM A PET SHOW — An unidentified onlooker holds a tight leash on her poodle while she watches parade of animals at Vista La Mesa School's Pet Show April 16.

LINEUP — Kids and dogs, in this case short dogs, fat dogs, long dogs and funny dogs, have assembled on playground for judging.

Dogs and other animals of wide variety which in many cases defied description paraded at Vista La Mesa School, and were the object of children's curiousity.

Traditional ribbons were awarded for prizes, but the categories were not so traditional: funniest, most unusual, most obedient, longest tail, most hair, most colorful, furriest, shortest tail . . .

Show was culmination of a long term Social Studies program and was open to all of school's children, third grade and above. The judges were children from other classes, and they made ribbons and awarded them.

PRIZE FOR LONGEST TAIL — Dale Wineteer uses one hand to hold his first place award and the other to hold Herman, a rambunctious white goose. One lady who had the job of holding Herman down during the awarding of ribbons said the big white goose is one year old, came from Pennsylvania and was raised specially for eating — which is what she had planned for him.

SHORTEST TAIL — Vivian Waterhouse has the rapt attention of another student as she reaches to touch Delbert, her 3-week-old mallard duckling.

All sizes and shapes of animals won prizes in the show; Miss Waterhouse's blue and gold first prize ribbon was awarded for Delbert's small tail.

Other first prize winnesr in Pet Show were: Debbie Oswalt, Karen Lintvedt, Darlene Simard, Carol Krusesky, Susan Riedel, Lori Scherl, Debbie Suthers, Tony Fortier, Billy Clegg, Mitch Morgan, Glenn Boettcher, Nancy Ruddock, Carol Heim, Janet Grim, Tammy Cole, June McIntyre, Kevin Foiles, Diane Leach, Pam Haider, Gail Schedine and Tom Engelke.

SD Chamber Of Commerce Asks Board Of Trustees To Find Site For New State College

The Board of Trustees of the California State College system will be asked by the San Diego Chamber of Commerce to direct a study immediately toward selection of a site or sites within San Diego County for a second State College campus.

Chamber directors approved, on April 16, a recommendation of the organization's Education Committee urging the trustees' immediate study of a second site.

The Chamber's recommendation also included: "We further recommend that the Coordinating Council for Higher Education immediately lift the 'freeze' on advance planning for State College campuses."

William B. Rohan, chairman of a subcommittee of the Education Committee, who presented the recommendation to Chamber directors, pointed out that San Diego State College is projected to exceed its current enrollment ceiling in 1973-74, and that by 1977-78 could have the largest potential excess demand of any State College in the system.

Expansion of the present State College campus would be prohibitive in cost, Rohan pointed out.

Additional problems are posed, he said, by parking needs and traffic congestion with the concentration of cars in one area.

"The situation at State College now emphasizes the need for advance planning for a second State College," he contended. "A master planned college with a planned attendance of 20,000 full-time student equivalents would require about 250 acres, which would include 50-75 acres usually needed for academic buildings, physical educatio facilities and parking.

"Such a parcel of land obviously must be purchased in acres of raw land. It is inconceivable that the State could afford to pay for developed land, as has been necessary by the present college's expansion moves. Hence, it is imperative that planning begin on site selection and purchase arrangements," Rohan added.

Rohan said that it has been estimated by State College officials that following authorization of a college by the Legislature, it would take five to seven years to open school doors to students.

"Further emphasis," he said, "is given to this need for anticipating the need for an additional institution well in advance of the actual need when one considers the savings which such planning can mean in financial terms."

He pointed out that the San Diego Unified School District by the use of options and deferring actual purchase of land has saved as much as 80 per cent of the value of land at the date of acquisition.

"We should not now point even tentatively to a location for a second State College. However, it is obvious that such an institution is soon to be demanded by the growing population here and it is imperative that advance planning and appropriate action move now to meet this demand," Rohan said.
